TO

H. V. Anantharaman, Esquire, B.A.,
Secretary to the Government of Mysore,
Revenue Department, Bangalore.

SIR,

With reference to your letter No.1549/Ft.79-24-2 dated the 1st instant, calling for my opinion on the resolution to be moved by Mr. M.B.Ramasinga Rao, Representative Assembly Member, Kolakalmuru, regarding Goat browsing in State Forests, I have the honour to invite your attention to correspondence ending with my letter No.878 dated 24th March last, containing my views in the matter. It will be clear therefrom that I am in favour of permitting Goat Browsing in State Forests, in the Maidan Districts of Bangalore, Tumkur, Kolar and Chitaldrug, where absolutely necessary, under proper safe-guards, and have proposed a fee of one rupee per head of Goat, in view of the enormous damage caused by such browsing, and consequently, necessitating expensive measures, such as fencing, etc., to prevent straying of Goats into closed areas. In G.O. No.327-54/25-29-36 dated 12th November 1902, the fee has been fixed from 2 to 8 annas according to the localities, the regulation of the fee within these limits being left to the Conservator of Forests. These rates, no doubt, call for urgent revision in view of the existing conditions, but I will have no objection to stick to these rates for some time longer to watch their effect on the Forests.

I have the honour to be,
Sir,
Your most obedient servant,

B. V. Ramaiengar

Conservator of Forests.

PSO 26.1.25

Ser. 79-24-4

Esteemed Sir,

The hardships of the goat-rearers & goat-browsing in the forests, are increasing. The people who rear the Goats are mostly Badagas & Gollars & ~~Kakomadans~~ Large sums are daily being extracted in the shape of Compound fees by forest department. These people were very very happy during the Rule of pollegars & Imamdars rulers. under the present system, strict forest laws are enforced, which work towards the ruin of these people. Their difficulty is inexplicable, most of them starve paying all their earnings to pay up the fines imposed on them.

Subj. The question is pending the issue of R.A. proc. of Oct 1924. MSR 29.1.25

During the last dasara sessions of the R.A. I brought forward a resolution to allow Goats to have its food in the forest. This was accepted by our benign Govt. and promised to give every facility to the goats in Malnad districts. Since the days are very hard, I pray, once more our benign Govt., to do all that is necessary to relieve the sufferings of these poor people.

I.

State Forests and Goats.

These dumb creatures are prevented to seek their food from the State Forests, for the reason, that by allowing these animals, the forests will be destroyed. There is not the least justification, for this view. Everybody knows that there were numerous goats prior to the conservation of Forests, where they used to grave, without restriction,

Though the Government is spending a lot of money, the forests are not, what they ought to be. They ought to have been more in a flourishing condition, in the absence of these animals. As such there is no justification in saying that goats are the cause for the deplorable condition of Forests. A resolution, on the subject was moved during the last Representative Assembly, by Mr. M. S. Narasinga Rao of Molkalmuru, when the Dewan replied, that 200 acres of Forests, have been provided already for this purpose, and necessary facilities would be given when goat breeding would be an industry. On this assurance the mover withdrew his resolution. As far as I know, the Government have not allotted any orea for this purpose in the State Forests as yet. The present system of our ryots, having goats, itself is an "Industry". The expression "Industry," is creating fear in the minds of ryots, as to what sort of restrictions would be ordered, but no orders were issued till now with regard to this important matter.

Supposing, it is a danger, that the animals by eating, the leaves of trees in the Forests, *that too for their food* but would it not be a greater danger, if the people, cut the green blushing trees for fuel ?.

These dumb animals, are owned by very innocent, and ignoront, masses, who belong to Mass-Naik and Gollar Commuuities, whose profession is merely goat-breeding. Occasionally and accidentally, these animals, will enter these forests, in search of foliage. Then, the authorities concerned in following the present Government rules, will bring these poor people into trouble and insist upon the owners to pay heavy ompensation. Is it not, (an appeal to your min do) a great loss to these poor owners, who live, actually, hand to mouth ? On account of these restrictions, many of the owners are selling the goats and sheep, and are seeking other professions to eke out their livelihrod. Besides the agriculturists, will suffer, for want of manure. In addision, the merchants suffer for want of trade. The next important matter is, that Sheep will be infected very often from epidemics. The sheep cannot flourish like goats. and in the absence of goats and sheep, what results can we achieve from. "Pashurakshana and Gerakshana Sangams", if this state of things continues ?

Surely, it is not proper on our part, to deter the dumb animals, seeking their food in open forests.

When all the human beings, are at liberty to find their food, as they like, is it not *highly sinful* to deter the dumb animals from doing. As a result of these restrictions, these animals, evidently suffer from lack of food.

If it is not possible to throw open all the state forests for these pitiable animals, to be fed, the authorities would please manage to divide each forest into four groups, and allot each group, a year, to feed these animals.

If this proposition is not brought to the earlier, surely the poor owners will havs to suffer a lot and the creatures, will disappear soon.

Gentlemen,

I appeal to you, to fight for the liberty of these dumb creatures as well as the poor ryots and help the public, there-by obtain also the right fruit from helping, a good canse.

He prayeth well, who loveth well;
Both men, bird and beasts.

Goat Browsing in State Forests.

Passes orders in the matter of allowing ——.

READ—

Government Order No. 327-34—2529-36, dated 12th November 1902, approving of the proposal of the Conservator of Forests to provide, as an experimental measure, browsing areas for goats under certain restrictions in the State Forests in the maidan districts of the State.

2. Para 6 of Government Order No. I. C. 6048-60—Ft. 226-18-11, dated 4th April 1924, directing that goats should, under no circumstances, be permitted to graze in the State Forests.

3. Resolution brought forward by Mr. M. S. Narasinga Rao of Molakalmuru at the Representative Assembly of October 1924, that goats should be allowed to graze in the State Forests.

ORDER No. I. C. 8501-9—FT. 79-24-6, DATED 22ND JUNE 1925.

Prior to November 1902, goats were rigorously excluded from State Forests by executive orders. In consideration of the serious inconveniences caused to owners of goats by such prohibition, Government directed in 1902, on the recommendation of the Offg. Conservator of Forests, that suitable areas should be selected from time to time in the State Forests in the four maidan districts of Kolar, Bangalore, Tumkur and Chitaldrug and that goats should be permitted to browse in such areas under certain restrictions. From the representations brought forward at the Representative Assembly, Government have reason to think that the order of November 1902 is not being properly given effect to and that a certain amount of hardship in this respect exists, specially in areas where goat breeding is largely practised. The Conservator of Forests is of opinion that goat-browsing may be allowed in all State Forests, in localities where such a concession is considered necessary.

Government are accordingly pleased to direct that goat browsing may be allowed in select State Forests or select areas of such forests in all parts of the State—maidan or malnad—at the discretion of the Conservator, according to the circumstances and needs of each locality. This concession will be subject to the safeguards mentioned in the Government Order of November 1902.
